

## METAMAGNETICS COMPANY OVERVIEW

U.S. based, and veteran owned, Metamagnetics develops and markets RF and microwave solutions to enhance the performance and effectiveness of mission-critical security, surveillance, and communication systems. Our unparalleled knowledge of electromagnetics and materials science empowers break-through technologies that can bring significant value to defense and commercial projects. Efficient and agile, our team can help you rapidly design and deploy innovative solutions for current and next-generation radar, sensing, and related systems.

### Capabilities

- Revolutionary RF interference mitigation solutions for cosite, jamming, and various other forms of interference
- Low profile, high power handling microstrip ferrite phase shifters for cost effective phased arrays
- Low profile, high power handling, tunable microstrip ferrite filters for systems operating in dense electromagnetic environments
- Micro circulators and isolators that do not require biasing magnets (self-biased)
- Advanced ferrite materials for nonlinear transmission lines and high-power microwave generation
- Low profile, compact, broadband, metamaterial-based antennas

### Partnerships

Lockheed Martin  
Raytheon  
Northrup Grumman  
Rockwell Collins  
Viasat

Office of Naval Research NAVSEA  
Army PEO Missiles and Space  
DARPA  
SPAWAR  
CERDEC

### Contact
